RAZED—A site for a new Russian Embassy in Washington apparently has been narrowed to a choice between the old Mount Alto Veterans Hospital, which is being demolished here, and the Tregaron estate in Cleveland Park. Demolition of the Wisconsin Avenue and Calvert Street site of the hospital reveals the reduction of the canteen which was used by patients and hospital personnel. Tregaron is considered too valuable to be razed. Diplomatic sources have indicated here that Russians would like Tregaron for an Embassy site but would move elsewhere.
